CCPC Report on ABM Problem

[REDACTED] called today to ask if DD/S&T might prepare a summary statement on the near-term projects listed in the CCPC report to USIB on ABM Problem. This statement would describe what we hope to accomplish with these projects by the end of the year. I presume that this would also include some reference to those projects which will not be completed at the end of the year.

Eloise also asked whether it would be appropriate to place this request directly with [REDACTED] or would we prefer to do it through the Directorate. I told her that I would refer the matter to Mr. Duckett on Thursday and let him decide who would be tasked with this assignment.
